America...under attack

Freedom...under attack

America will never forget

America will do whatever it takes...

...go wherever this conflict may lead

...and it will end on our terms!

The world changed on September 11th

America faces a “Triple Threat”

We are at war

America suffered a profound National Emergency

Our pre-attack recession grew deeper

Any one challenge would make a Budget Plan difficult

all three could create deficits for many years

When the world changed on September 11th

**President Bush provided leadership and a Budget plan
and**

**America saw the Congress come together and provide
in a bi-partisan way...**

Resources to meet the National Emergency

Resources to prosecute the war

And finally, last week,

Tax Relief to create jobs and resources to protect workers

These appropriate responses eliminated the surplus

and Americans still are wondering...

Is America safe?

Will I have a good paying job?

*Do my family and I have a
secure future?*

**For any Budget Plan to be credible
therefore, it must provide...**

Security for our nation!

Security of a growing economy!

*Security for ourselves and our
families' future!*

A Budget to Secure America's Future

Is America safe?

Our Wartime Budget Plan provides resources to...

Secure our Nation

Win the war

Secure our homeland

Invest in future technology

Keep our promise to our veterans

With our Budget Plan,

America is safer!

Will I have a good paying job?

Our Wartime Budget provides resources to...

Secure a Growing Economy

Fund job creation & worker protection Bill

Adopt a “National Energy Strategy”

Invest in America’s roads and infrastructure

Provide an agriculture safety-net

Promote trade and access to our products

Provide tax relief and tax reform

In short: creates jobs!

With our Budget Plan,

America's economy will be stronger!

Do my family and I have a
secure future?

Our Wartime Budget provides resources to...

Secure the Future for Ourselves and Our Families

Leave no child behind in education

Fully-fund and reauthorize special education

Conserve and protect our environment

Access quality, affordable health care

Modernize Medicare with prescription drugs

**Protect our Social Security benefits, our pensions
& our savings**

With our Budget Plan,

Our future, and families' future
is more secure!

And, without our bi-partisan response to
stimulate the economy,

it's a Balanced Budget!

and

National Debt repayment continues in 2004!

Even sooner as the economy improves

Our mission is undeniable...

Secure America's Future!

Our strategy is clear...

Security for our nation!

Security of a growing economy!

*Security for ourselves and our
families!*

The America people make it happen...

...and our Plan secures their future!

The Budget to Secure America's Future

(Part one)

Secure our nation

(Mac Thornberry, *Texas-13*)

(Part two)

Secure a growing economy

(John Sununu, *New Hampshire-01*)

(Part three)

Secure the future for ourselves and our families

(Peter Hoekstra, *Michigan-02*)

The Budget to Secure America's Future

Access quality, affordable health care

Modernize Medicare with prescription drugs

**Protect our Social Security benefits, our pensions
& our savings**

With our Budget Plan,

Our future, and families' future
is more secure!

Our challenge is clear...we must write a budget that provides:

Security for our nation!

Security of a growing economy!

Security for ourselves and our families!

It's time to get to work!
